SUMMARY

I am a Software Engineer with 4 years of backend experience, expertise in Kubernetes, and frontend skills in React and TypeScript. Currently transitioning to blockchain development, I bring a year of Web3 experience, including Ethereum smart contracts, and a strong foundation in scalable system design.

EXPERIENCE

Software Engineer

Venly.io

03/2023 - 12/2023 Ukraine

<https://www.venly.io/>

Java 17 | Spring | EVM | Typescript | React | PostgreSQL

- Secured over **30** Spring endpoints by implementing custom validation
- Refactored more than **220** classes, reducing code duplication by **10%**
- Created a set of database procedures to clean up inactive wallets, reducing the number of records by **17%**
- Implemented over **120** test classes, increasing code coverage by **13%**
- Resolved more than **50** bugs, reducing the backlog by **25%**

Software Engineer Backend

GlobalLogic Ukraine

05/2021 - 07/2022 Ukraine

<https://www.globallogic.com/>

Java 11 | Kubernetes | Docker | Spring | Grafana | Prometheus

- Implemented a Grafana Prometheus setup with more than **30** dashboards, which helped to identify **3** memory leaks and **1** CPU leak
- Onboarded and guided new trainee developer through his way to becoming a junior developer
- Analyzed more than **20** GB of logs from orchestrated services, which helped detect a critical issue in the synchronization of recovered database replicas

Junior Java Developer

SoftServe Inc.

12/2020 - 05/2021 Ukraine

<https://www.softserveinc.com/>

Java 8 | Spring | Maven | Nginx | Docker

- Learned more than **10** new technologies, which were used in project
- Developed **7** pet projects, which led me to high mark on promotion screening

SKILLS

Smart Contracts

Solidity, IPFS, ethers.js, web3.js, hardhat, foundry, security audit, YUL, slither, gas optimization

Frontend

HTML, CSS, JavaScript, Tailwind CSS, React.js, Typescript, Next.js

Other

Java, Docker, Kubernetes, Grafana & Prometheus, Spring, PostgreSQL

EDUCATION

Ethereum Smart Contract Developer

<https://metana.io>

01/2024 - 11/2024

Java Developer

<https://mate.academy/en>

04/2020 - 12/2020

Bachelor of Technology and Engineering

Ukrainian State Chemical Technology University

Ukraine

GPA

3.7 / 4.0

OSS CONTRIBUTIONS

Fuels TS

<https://github.com/FuelLabs/fuels-ts>

Solana Explorer

<https://github.com/solana-labs/explorer>

PASSIONS

Community Volunteer at Building Ukraine Together
