EXPERIENCE

Mar 2023 - Dec 2023
Software Engineer, *Venly.io*

- **REST API:** Secured over 30 Spring endpoints by implementing custom validation.
- **Databases:** Created a set of database procedures to clean up inactive wallets, reducing the number of records by 17%.
- **Support:** Resolved more than 50 bugs, reducing the backlog by 25%.
- **DevOps:** Created a GitHub Actions pipeline for AWS S3 file uploads.
- **Design:** Standardized EVM networks integration, reducing the codebase size by 8%.
- **Team Collaboration:** Onboarded and guided new employees through project setup.
- **Testing:** Implemented over 120 test classes, increasing code coverage by 13%.
- **Optimization:** Refactored more than 220 classes, reducing code duplication by 10%.

May 2021 - Jul 2022
Backend Developer, *GlobalLogic Ukraine*

- **Observability:** Implemented a Grafana + Prometheus setup with more than 30 dashboards, which helped to identify 3 memory leaks and 1 CPU leak.
- **Support:** Analyzed more than 20 Gb of logs from orchestrated services, which helped to detect a critical issue on synchronization of recovered database replicas.
- **Debugging:** Debugged remotely deployed services, define 5+ JIRA tickets on services owners
- **Documentation:** Created 10+ documentation articles on project CPI, improved documentation readability and quality.
- **Team Collaboration:** Helped new team members with their tasks, which increased the team's productivity by 10%.
- **Mentoring:** Onboarded and guided new trainee developer through his way to becoming a junior developer.

Dec 2020 - May 2021
Junior Backend Developer, SoftServe Inc.

- **Technologies:** Learned more than 10 new technologies, which were used in project.

- **Projects:** Developed 7 pet projects, which led me to high mark on promotion screening.
- **Documentation:** Created presentation on provided topic, which helped to improve the team's understanding of the project.
- **Team Collaboration:** Received guidance from senior developers, which helped to improve my coding skills.

EDUCATION

Mar 2024 - Sep 2024
Web3 Solidity Bootcamp, [Metana](#)

Aug 2020 - Dec 2020
Java Developer Bootcamp, [Mate Academy](#)

Sep 2019 – May 2023
Chemical technology and engineering, Ukrainian State University of Chemical Technology

---

SKILLS

Solidity Smart Contract Security Audit	Hardhat	
Foundry	EVM Gas Optimization	HTML
JavaScript	CSS	TypeScript
Tailwind CSS	React.js	NextJS
